

# How to make a Google Play playlist on desktop

Research has shown there are evidenced emotional, psychological, social and communication benefits to playing personalised music with people living with dementia.

Often families or loved ones don't know how to get on to the right platform to create a playlist, nor do they know how to have a conversation with their loved one about what music they would like on it.

Music for Dementia 2020 has produced this series of guides to help you access the music you love.

**Please note:** Google Play Music is a paid for service and even a free trial requires you to enter payment card details. The free trial lasts 30 days. The paid account, Google Premium, offers an advert-free service for £9.99 a month.

1.

## Open Google Play Music web player

Enter the following link into your web browser

<https://play.google.com/music/>

2.

## Login

Click the icon at the top right of the screen and enter your username and password.

3.

## Search for music

Type in the name of the song and press enter. Then, on the menu click the 3 dots and **add to playlist** and **new playlist**.

4.

## Name your playlist

Click **Create playlist** and add a name, description and privacy setting.

To locate your playlist click on the musical note on the left hand side of the screen and your playlist should appear.

5.

## Add more songs to your playlist

To add more music, search for the song you want to add, hover the mouse over it and select the **Menu** icon then **Add to playlist**. On the next screen your playlist should appear. Click on that and the song will be added.

6.

## To remove songs

To delete a song from your playlist, click on the 3 dots and then select **Remove from playlist**.

Now get ready to dust off your air guitar!

# How to make a Google Play playlist on mobile

Research has shown there are evidenced emotional, psychological, social and communication benefits to playing personalised music with people living with dementia.

Often families or loved ones don't know how to get on to the right platform to create a playlist, nor do they know how to have a conversation with their loved one about what music they would like on it.

Music for Dementia 2020 has produced this series of guides to help you access the music you love.

**Please note:** the Google Play Music app is automatically downloaded onto Android devices.

1.

## Open the Google Play Music app

Click on the orange triangle icon on your phone. If using an iPhone, download the app from the app store.

2.

## Search for music

Click the search icon at the top right of the screen and type in the name of the song you want to add.

3.

## Create playlist

Once you have found a song tap the three vertical dots next to the name then **Add to playlist** from the menu. Tap **New Playlist**.

4.

## Name your playlist

Type whatever you want to call your playlist in the name box. You can also add a description.

Locate your playlist by selecting **library** at the bottom of the screen.

5.

## Add more songs to playlist

Search for other songs you want to add and tap the three vertical dots. Click **Add to playlist** and scroll down until your named playlist appears. Select that and the song will be added.

6.

## To remove songs

To remove a song tap on the 3 dots to the right of the playlist name and then edit playlist. Tap the red circle with a white line through it to the left of the song name and then press **delete**.

Now get ready to dust off your air drums!
